

A map of the state of Vermont is shown, filled with numerous small icons. The icons are orange carrots and black cow silhouettes, scattered across the entire land area of the state. The map is light gray with white lines representing roads or rivers. The text "Get Your Maps Online!" is overlaid in the center of the map.

Get Your Maps Online!

 - They send you an email

A screenshot of a web browser window displaying the ArcGIS Online sign-in page. The browser's address bar shows the URL "https://vaafm.maps.arcgis.com/home/signin.html". The page has a blue header with the text "Sign In". Below the header, there is a white box containing the sign-in form. The form includes fields for "Username" and "Password", a checkbox for "Keep me signed in", an orange "SIGN IN" button, and a link for "Forgot Username or Password?". The background of the slide features a map of the United States with numerous orange carrot icons and black cow icons scattered across it.

Map a Map & Load it up!

- Leave only layers you want to display
- Re-point anything from SDE (unless you want to make a web service which requires ArcServer)
- Strip off basemap (you won't need it)
- File > Sign In
- File > Share As > Service > Publish a service > My Hosted Services > Name it and Click Continue

Compile & Post

- Capabilities > Feature Access
- Sharing
- Analyze

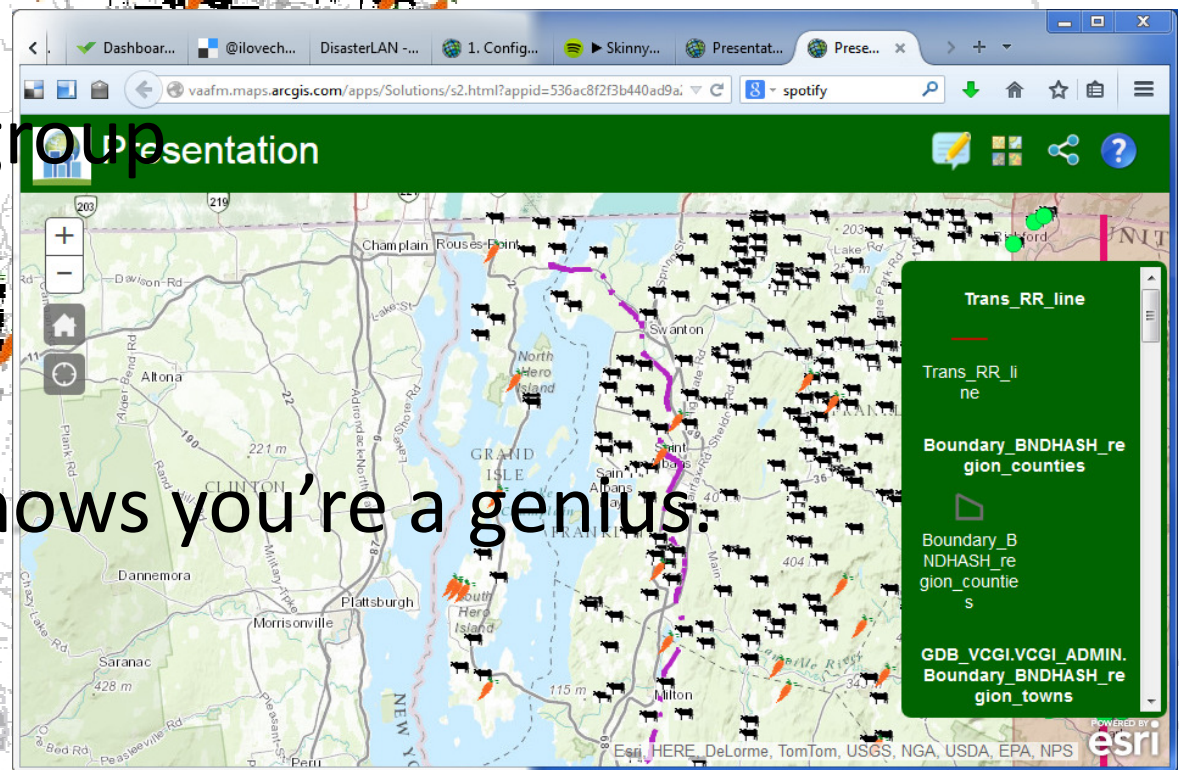

Make it Stick Online

- Create a new map
- Find your service
- Save As
- Share to your group
- Configure app

Bam!

Now everyone knows you're a genius.

Bonus: Add VCGI Web Services

- Search for layers by “VCGI”
